

# Genomic Instability Gordon Research Conference

July 22-27, 2018, Hong Kong University of Science & Technology

Chairs: Anja Groth & Anindya Dutta

Vice Chairs: Michael Huen & Lee Zou

## **Chromosome Replication**

Bruce Stillman / John Diffley / Bik Tye

## **Replication fork collapse, repair and restart**

Karlene Cimprich / Agata Smogorzewska / Michael Huen / Bob Weiss /  
Kyungjae Myung

## **Telomere maintenance mechanisms**

Ming Lei / Simon Boulton

## **Histone dynamics and epigenome maintenance**

Dinshaw Patel / Shiv Grewal / Ruiming Xu / Qing Li

## **Nuclear Architecture and chromosomal stability**

Susan Gasser / Clodagh O'Shea

## **DSB repair mechanisms**

Yunje Cho / Jo Murray / Shunichi Takeda / John Rouse

## **DNA damage signaling**

Junjie Chen / Li-Lin Du / Lee Zou

## **Genome instability and disease**

Maria Jasin / Fred Alt / Eva Hoffman / Yossi Shiloh

## **Targeting genome and epigenome maintenance in cancer**

Mark O'Connor / Wei-Guo Zhu

**15 speakers will be selected from abstracts**

**Registration deadline June 24, 2018**

<https://www.grc.org/programs.aspx?id=16811>

**The GRC is preceded by a Gordon Research Seminar (GRS) for trainees on July 21-22, 2018. Registration and information at <https://www.grc.org/programs.aspx?id=17178>**
